

## SUBSTANCE ABUSE PROVIDER MATRIX

### INFORMATION GUIDELINE

This matrix was developed by the Substance Abuse Coordinating Team (SACT), a sub-committee of the Woonsocket Task Force on Substance Abuse.

The goal of the matrix is to provide clinicians with a reference tool to substance abuse services for community residents. Please note that this is a guide and agency services are subject to change.

Page 1 provides you the foundation of agency services to include:

- client population
- treatment settings
- types of substances treated
- payer source
- additional information specific to toxicology screening and detox

Page 2 of this matrix provides you with information about special services, which means each agency provides either a special program or has a skilled clinician who has experience in these areas.
